Technical Overview – Built for Reliability & Scale

Cloud Hosting

Powered by AWS (option for Google Cloud).

Architecture

Multi-instance setup (each client gets a dedicated instance for security & performance).

Scalability

Grows with your institution - from 500 to 50,000+ users without hardware upgrades.

Integrations

Ready-made APIs for ERP, LMS and Payment systems (Intellimis, SomaLMS, EduBridge, Lollapay).

Security

End-to-end encryption, regular backups and 24x7 monitoring.

Compliance

Supports data protection and institutional reporting standards.

Flexibility

Available as **Cloud SaaS (preferred)** or **On-Premise / Private Cloud** if policy requires.

LybHub combines the flexibility of open standards (Koha, Folio) with the scalability of modern cloud infrastructure.

LybHub Cloud (Preferred)

- ✓ **Zero Infrastructure Costs** - No servers, backups, or maintenance required.
 - ✓ **Always Updated** - Automatic upgrades & new features without downtime.
 - ✓ **High Availability** - 99.9% uptime, managed on AWS/GCP.
 - ✓ **Affordable Subscription** - Predictable monthly/annual fees.
 - ✓ **Scalable** - Grow from 500 to 50,000+ users without extra IT burden.
 - ✓ **Secure & Compliant** - Enterprise-grade data encryption & backups.
 - ✓ **Integrated Ecosystem** - Plug directly into SomaLMS, Intellimis ERP, EduBridge & Lollapay.
- 👉 Best for most schools, TVETs, polytechnics & universities.

On-Premise / Private Cloud

- ⚠️ **High Setup Cost** – servers, licenses and installation.
 - ⚠️ **Your IT Burden** – institution must manage hosting, storage & uptime.
 - ⚠️ **Slower Upgrades** – dependent on annual SLA support.
 - ⚠️ **Higher Risk of Downtime** – reliant on local infrastructure & power.
 - ⚠️ **Limited Scalability** – upgrades require new hardware or costly migration.
 - ⚠️ **Security Risks** – often weaker without enterprise-level firewalls & monitoring.
- 👉 Best only if mandated by government/data sovereignty policies.

Why Choose LybHub Cloud?

Most institutions in Kenya & Africa do not have the IT budget or staff to manage servers reliably.

With **LybHub Cloud**, you:

- ✓ Cut costs by up to **60%** vs on-prem.
- ✓ Guarantee 24x7 reliability and disaster recovery.
- ✓ Focus on **students & research**, not servers.
